FRESNO COUNTY BOARD OF EDUCATION**Instruction**
COMPREHENSIVE HEALTH EDUCATION

The County Superintendent and County Board believe that health education should foster the knowledge, skills, and attitudes that students need in order to lead healthy lives and avoid high-risk behaviors, and that creating a safe, supportive, inclusive, and nonjudgmental environment is crucial in promoting healthy development for all students. The County Superintendent/County Board health education program shall be part of a coordinated school health system which recognizes that mental health and social connection are critical to a student's overall health, well being, and academic success, supports the physical, mental, and social well-being of students, reflects the importance of digital and media literacy, and is linked to the County Superintendent/County Board and community services and resources.

Goals for the County Superintendent/County Board health education program shall be designed to promote student wellness and shall include, but not be limited to, goals for nutrition promotion and education, physical activity, and other school-based activities that promote student well-being.

Any health education course offered to middle or high school students shall include instruction in mental health that meets the requirements of Education Code 51925-51926, and as specified in Administrative Regulation 6143 – Courses of Study.

The County Superintendent/County Board shall provide a planned, sequential, research-based, and developmentally appropriate health education curriculum for students in grades K-12 which is aligned with the state's content standards and curriculum framework and integrated with other content areas of curriculum. The County Superintendent or designee shall determine the grade levels and subject areas in which health-related topics will be addressed, in accordance with law, County Superintendent and County Board policy, and administrative regulation.

As appropriate, the County Superintendent or designee shall involve school administrators, teachers, school nurses, health professionals representing various fields of health care, parents/guardians, community-based organizations, and other community members in the development, implementation, and evaluation of the health education program. Health and safety professionals may be invited to provide related instruction in the classroom, school assemblies, and other instructional settings.

The County Superintendent or designee shall provide professional development as needed to ensure that health education teachers are knowledgeable about academic content standards, the state curriculum framework, and effective instructional methodologies.
