Inspection of Records and Requests for Copies

Any person may request a copy or inspection of any record of the County Superintendent or County Board that is not exempt from disclosure. (Government Code 6253.)

Within 10 days of receiving any request to inspect or copy any record, the County Superintendent or designee shall determine whether the request seeks release of a disclosable public record in the County Superintendent's possession. The County Superintendent or designee shall promptly inform the person making the request of his/her determination and reasons for the decision. (Government Code 6253.)

In unusual circumstances, the County Superintendent or designee may extend the 10-day limit for up to 14 days by providing written notice to the requester and setting forth the reasons for the extension and the date on which a determination is expected to be made. Unusual circumstances include the following, but only to the extent reasonably necessary to properly process the request (Government Code 6253):

1. The need to search for and collect the requested records from field facilities or other establishments that are separate from the office processing the request.

2. The need to search for, collect, and appropriately examine a voluminous amount of separate and distinct records which are demanded in a single request.

3. The need for consultation, which shall be conducted with all practicable speed, with another agency (e.g., a state agency or school district) having a substantial interest in the determination of the request or among two or more components of the County Superintendent (e.g., two different programs) with substantial interest in the request.

4. In the case of electronic records, the need to compile data, write programming language or a computer program, or construct a computer report to extract data.

If the County Superintendent or designee determines that the request seeks disclosable public records, the determination shall state the estimated date and time when the records will be made available. (Government Code 6253.)

Public records are open to inspection at all times during County Superintendent business hours. Any reasonably segregable portion of a record shall be made available for inspection by any person requesting the record after deletion of the portions that are exempted by law. (Government Code 6253.)

Upon request for a copy that reasonably describes an identifiable record, an exact copy shall be promptly provided unless it is impracticable to do so. (Government Code 6253.)

The County Superintendent or designee shall charge an amount for copies that reflects the direct costs of duplication. Written requests to waive the fee shall be submitted to the County Superintendent or designee.
Without charging any fees or costs, the County Superintendent or designee shall allow members of the public to use their own equipment on County Superintendent/County Board premises to photograph or otherwise copy or reproduce a disclosable record as long as the means of copy or reproduction: (Government Code 6253)

1. Do not require the equipment to make physical contact with the record
2. Will not result in damage to the record
3. Will not result in unauthorized access to the County Superintendent's computer systems or secured networks by using software, equipment, or any other technology capable of accessing, altering, or compromising the County Superintendent's electronic records

County Superintendent or designee may impose any reasonable limit on the use of personal equipment to photograph, copy, or reproduce a disclosable record that is necessary to protect the safety of the records, or to prevent the copying of records from being an unreasonable burden to the orderly function of the office of the County Superintendent and its employees. County Superintendent or designee may also impose any limit that is necessary to maintain the integrity of, or ensure the long-term preservation of, historic or high-value records. (Government Code 6253)

In addition to maintaining public records for public inspection during County Superintendent business hours, the County Superintendent and County Board may comply with public records requests by posting any public record on the website maintained by the County Superintendent and, in response to a public records request, directing the member of the public to the location on the web site where the record can be found. However, if the member of the public is unable to access or reproduce the records from the web site, the County Superintendent or designee shall promptly provide an exact copy of the public record upon payment of duplication fees, if applicable, unless it is impracticable to provide an exact copy. (Government Code 6253.)

If any person requests a public record be provided in an electronic format, the County Superintendent or designee shall make that record available in any electronic format in which it holds the information. A copy of the electronic record in the format requested shall be provided as long as the requested format is one that has been used to create copies for the County Superintendent's or County Board's own use or for use by other agencies. (Government Code 6253.9.)

The cost of duplicating an electronic record shall be limited to the direct cost of producing a copy of the record in electronic format. However, the requester shall bear the cost of producing the copy of the electronic record, including the cost to construct the record and the cost of programming and computer services necessary to produce the copy, under the following circumstances (Government Code 6253.9):

1. The electronic record is one that is produced only at otherwise regularly scheduled intervals.
2. The request would require data compilation, extraction, or programming to produce the record.

**Assistance in Identifying Requested Records**

If the County Superintendent or designee denies a request for disclosable records, the requester shall be assisted in making a focused and effective request that reasonably describes an identifiable record. To the extent reasonable under the circumstances, the County Superintendent or designee shall do all of the following (Government Code 6253.1):

1. Assist in identifying records and information responsive to the request or the purpose of the request, if specified. If, after making a reasonable effort to elicit additional clarifying information from the requester to help identify the record, the County Superintendent or designee is still unable to identify the information, this requirement shall be deemed satisfied.

2. Describe the information technology and physical location in which the records exist.

3. Provide suggestions for overcoming any practical basis for denying access to the records or information sought.

Provisions of the Public Records Act shall not be construed so as to delay or obstruct the inspection or copying of public records. Any notification denying a request for public records shall state the name and title of each person responsible for the denial. (Government Code 6253.)
