Philosophy, Goals, Objectives, and Comprehensive Plans
EQUITY

The County Superintendent and County Board believe that the diversity that exists among the community of students, staff, parents/guardians, and community members is integral to the County Superintendent’s and County Board’s vision, mission, and goals. Addressing the needs of the most marginalized learners requires recognition of the inherent value of diversity and acknowledgement that educational excellence requires a commitment to equity in the opportunities provided to students and the resulting outcomes.

In order to eradicate institutional bias of any kind, including implicit or unintentional biases and prejudices that affect student achievement, and to eliminate disparities in educational outcomes for students from historically underserved and underrepresented populations, the County Superintendent and County Board shall proactively identify class and cultural biases as well as practices, policies, and institutional barriers that negatively influence student learning, perpetuate achievement gaps, and impede equal access to opportunities for all students.

The County Superintendent and County Board shall make decisions with a deliberate awareness of impediments to learning faced by students of color and/or diverse cultural, linguistic, or socio-economic backgrounds. To ensure that equity is the intentional result of County Superintendent and County Board decisions, the County Superintendent and County Board shall consider whether their decisions address the needs of students from racial, ethnic, and indigent communities and remedy the inequities that such communities experienced in the context of a history of exclusion, discrimination, and segregation. County Superintendent and County Board decisions shall not rely on biased or stereotypical assumptions about any particular group of students.

The County Superintendent and County Board shall develop and implement policies and strategies to promote equity in County Superintendent and County Board programs and activities, through measures such as the following:

1. Routinely assessing student needs based on data disaggregated by race, ethnicity, and socio-economic and cultural backgrounds in order to enable equity-focused policy, planning, and resource development decisions.

2. Analyzing expenditures and allocating resources in a manner that provides all students with equitable access to County Superintendent and County Board programs, support services, and opportunities for success and promotes equity and inclusion. Such resources include access to funding; technology, equipment, textbooks, and other instructional materials; facilities; and community resources or partnerships.

3. Enabling and encouraging students to enroll in, participate in, and complete curricular and extracurricular courses, advanced college preparation programs, and other student activities.
4. Building a positive school climate that promotes student engagement, safety, and academic and other supports for students.

5. Adopting curriculum and instructional materials that accurately reflect the diversity among student groups.

6. Ensuring the availability of necessary support services for students in need.

7. Conducting program evaluations that focus on equity and address the academic outcomes and performance of all students on all indicators.

The County Superintendent and County Board shall regularly monitor the intent and impact of its policies and decisions in order to safeguard against disproportionate or unintentional impact on access to County Superintendent and County Board programs and achievement goals for specific student populations in need of services.

Adopted: 06/17/2021
