Instruction

STATE ACADEMIC ACHIEVEMENT TESTS

The County Superintendent and County Board recognize that state achievement test results provide an indication of student progress in achieving state academic standards and may be used to promote high-quality teaching and learning. The County Superintendent or designee shall administer mandatory student assessments within the California Assessment of Student Performance and Progress (CAASPP) as required by law and in accordance with County Superintendent and County Board policy and administrative regulation.

The County Superintendent and County Board strongly encourage all students at the applicable grade levels to participate in the state assessments in order to maximize the usefulness of the data and enable the County Superintendent/County Board to meet participation levels required for state and federal accountability systems. The County Superintendent or designee shall notify students and parents/guardians about the importance of these assessments and shall develop strategies to encourage student participation. Students shall be exempted from participation only in accordance with law and administrative regulation.

The County Superintendent and County Board shall annually examine state assessment results by school, grade level, and student subgroup as one measure of progress in attaining student achievement goals and shall revise the local control and accountability plan and other plans as necessary to improve student achievement for underperforming student groups.

Adopted: 08/18/2011
Amended: 11/19/2020
